

## Generic Battery Care Guide

This guide contains general information regarding the care and maintenance of battery-powered light fixtures. For detailed instructions and specifications, please consult your product's user manual. Failure to follow the guidelines in this guide may affect your product's warranty. The determination of misuse is at the sole discretion of Event Lighting and its distributors.

### Charging:

- **Power Off:** Always switch off the fixture before charging.
- **Full Charge:** Charge the battery to full capacity before initial use and regularly before each use for optimal performance. Charging time varies by model (typically 4-6 hours).
- **Avoid overcharging:** Once the unit has reached 100% charge, remove the unit from power.
- **Charging Case (if applicable):** When using a charging case, ensure this is used in a room with proper ventilation and avoid charging units once they have reached full charge.
- **Use During Charging:** Do not operate the fixture while charging.

### Battery Care:

- **Over-Discharge Protection:** Your fixture likely has built-in protection to prevent over-discharge. The light will turn off at a low voltage threshold.
- **Mains Power Operation (if applicable):** Some fixtures can operate on mains power while charging. Please ensure your fixture can operate in this mode before use. If applicable, avoid prolonged use in this mode.
- **Ambient Operating Temperature:** Make yourself aware of the unit's ambient operating temperature and ensure the unit is not operated in excess of this temperature.
- **Storage:** For long-term storage, charge the battery to approximately 80% and periodically cycle the battery (fully discharge and recharge) at least monthly.
- **Lifespan:** Battery lifespan depends on usage, charging habits, and storage.

### General Information:

- **Refer to Product Manual:** This guide is general. Always consult your product's user manual for specific operating instructions, safety precautions, troubleshooting tips, and warranty information.
- **Safety:** Do not disassemble, modify, or expose the fixture or battery to extreme conditions. Dispose of batteries responsibly.
